## MVL - COMBINED SUPPLY CHAIN EXPERIENCE AND HIGHLIGHTS

- Supply and logistics of over 20,000 tons of Steel Coil for USACE KSpan Projects in the Afghanistan specified by USACE and AFCEE. Value over \$36 million.
- Procurement and transport of over 1,000,000 square meters of sandwich panel procurement from Turkey and dispatched to Afghanistan, Oman, Kazakhstan, Turkmenistan, Abu Dhabi with a value of \$40 million.
- Procured and transported several thousand tons of PPGI Steel coil to KSPAN spec from various locations in Europe, Turkey, India and Russia with final destination to Afghanistan as non-commercial shipments which included tax exoneration processing.
- Procured and dispatch three 70 ton steam boilers routed through Milan with a final destination of Turkmenistan, value \$14 million. Over 200 overhead cables were cut and bridges averted to make way for these boilers to port.
- Procurement and dispatch of 30 neutral earthing Transformers (NET) of 35 kV, ONAN, ZN, 3 Phase, 50 Hz, Oil Immersed, conservator type, copper wound, earth fault current rating of 700A for 10 Sec. complete with Mineral oil, Air insulated terminal boxes for HV & Neutral terminals, Marshalling box, Protective devices, and all accessories, dispatched from Colico Italy to Algeria multi-modally.
- Procurement and transport of 1688 valves (gate, globe, check) of sizes ranging from 4" to 56", stainless steel, including fugitive emissions testing and type acceptance testing to shell standards. Material was procured from Lille France and dispatched to Oman construction site in 32 lots in record timing.
- Successfully delivered over \$700 million of material for various flagship projects into the MENA region to clients KBR, GASCO, PDO, Petrofac, Technip, from Europe, Asia, and the United States.
- Developed Supply Chain metrics for fuel procurement process improvement within DLA Reviewed published energy use policy and current practices to identify areas where improved return on investment could be leveraged.
- Provided strategic guidance for procurement of RFID in-transit visibility systems leading to increased supply chain efficiencies.
- Supported DLA Automated Information Technology program management.
- Responsible for formulating a procurement strategy to acquire supplies and services in a variety of locations.
- Conducted procurement activities in Canada, Netherlands, Morocco, UAE, Jordan, Iraq, and the US while implementing a sourcing strategy that aligns new acquisitions with the existing portfolio which required extensive international travel.
- Conducted re-bid of all contracts for spare parts at power generation locations leading to more than \$20M USD in savings
- Participated in development of a \$200million Oracle based E-Procurement and Materials Management system. This experience has led to the creation of MVL's own materials management system "MicroTrak".

## CORPORATE PROFILE

MVL is an industry leading supply chain and construction supply management company with concentration in the Middle East and North Africa that provides professional services to companies within the defense, construction, and engineering industries. MVL's construction management consultants collaborate with its clients to help them exceed industry standards and improve performance. Serving a wide range of industries and construction projects worldwide, we blend diverse expertise with keen foresight to facilitate projects and mitigate risk. Whether you're an owner, contractor, or other construction professional, we can assist you in achieving project success, from the ground up.

### About MVL

Exceeding the standard. We add value and improve our the bottom line of our clients in the construction and engineering industries by offering solutions in construction and building supply, engineering and construction consultancy, project management solutions, and logistics solutions to mitigate delays or beat deadlines.

### Professional Services

Simplifying the complex. From pre-project planning to litigation support, MVL provides cost-effective solutions to owners, contractors, architects, engineers, insurance companies, government agencies, and financial institutions.

### Industries Served

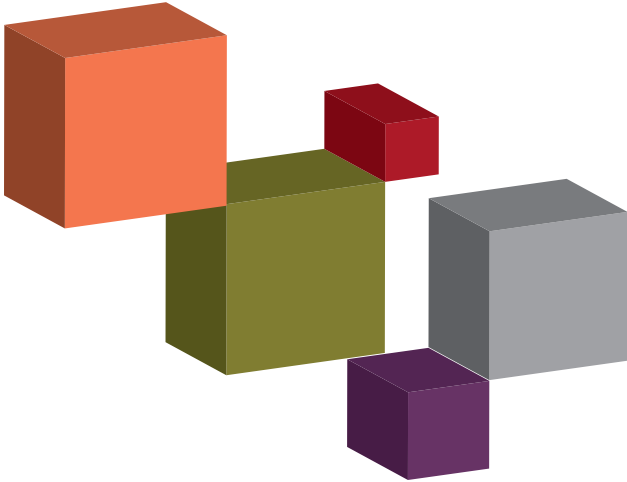

Diverse industry experience. MVL's construction management consultants have provided assistance on a myriad of projects in a number of industries worldwide.

### Mission & Vision Statement

To become the leading construction supply and logistics source for top level clientele in the MENA region.

### MVL Culture

Since the beginning, MVL has been governed by its core values instilled through its culture and character of the company.

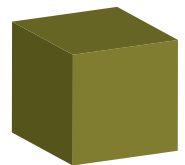

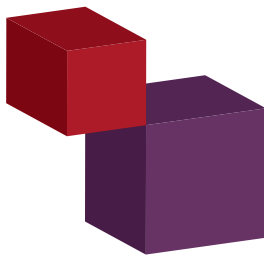

## CONSTRUCTION SUPPLY

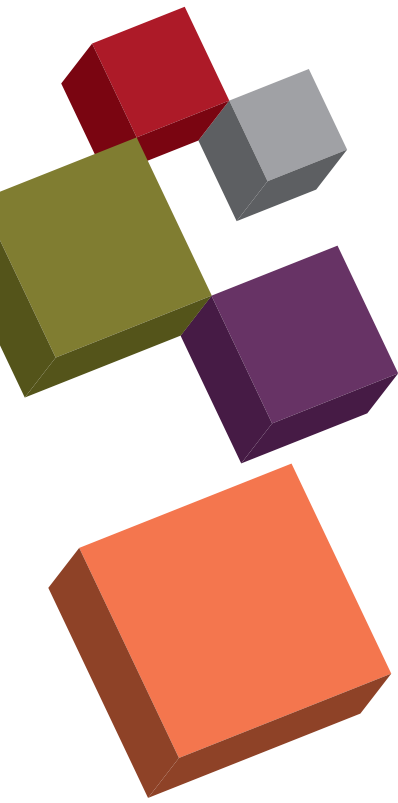

MVL supplies quality construction and industrial tools, products, and building materials to client's world wide. Since 1994, MVL has a proven reputation in the industry as a reliable and consistent source for standard and special order items used by the construction professional.

Our goal is to provide our clients with exceptional customer service as well as an extensive knowledge of a wide variety of products and how to apply them. Our team is willing to take the extra steps necessary to obtain the unique and specialty requests of our clients. We focus on the professional commercial and oil and gas construction market, and we also service a variety of other industrial accounts. At MVL, we are dedicated to serving all customers who call upon us for professional and quick service.

We are proud to supply a variety of unique tools, general hardware, fasteners, concrete specialties, and building materials to the Middle East and around the world. We also rent many types of construction equipment. Please ask us about any of the following products or services:

- Structural Hardware • Fasteners • Concrete & Slab Forming Accessories • Equipment Rental
- Sealants • Rebar and Steel Fabrication • Geotextiles • Waterproofing • Chemicals & Adhesives
- Tool Repair • Special Orders • Unique Tools & Accessories • Survey Instruments • Complete Hardware Department • Safety Wear • much, much, more...

## ENGINEERING

MVL provides the industry experience, commitment and proven results your project needs to help see it through completion. A multi-disciplined construction management and engineering consulting group with engineering centers in India, Dubai, and the United States, we provide the innovative solutions for the proactive and forensic support you need to deliver your project on time and within budget.

MVL's engineering and construction consultants have extensive, hands-on experience supporting a multitude of projects worldwide. Construction consulting areas of expertise include:

## INTERNATIONAL CONSTRUCTION CONSULTING SERVICES

- Project Planning
- Risk Management
- Program Management
- Project Due Diligence
- LEED Consulting Evaluations
- Construction Management
- Critical Path Method Scheduling
- Schedule Delay Analysis
- Construction Cost Estimating
- Construction Claims
- Litigation Support
- Expert Witness Testimony
- Quantification of Damages
- Defect Evaluation & Analysis
- Construction Training

Serving a wide range of industries and construction projects worldwide, we blend diverse expertise with keen foresight to facilitate projects and mitigate construction risk. Whether you're an owner, contractor, attorney, surety or other construction professional, we can assist you in achieving project success, from the ground up.

As construction management consultants, MVL offers the expertise and guidance required to assist all professionals working within the construction industry. From conceptualization to project close-out, MVL's consultants rely on their diverse educational backgrounds and practical construction experience to provide proactive and forensic project support.

For more information regarding our professional construction engineering and management consulting services, find out why we are a different consulting firm or to speak to one of our consultants, please feel free to contact us. We are ready to take your engineering project from proposal stage through commissioning and final delivery.

## PROJECT MANAGEMENT

Given the multi-faceted nature of construction, integration is the name of the game. And who you choose to have on your team will be crucial to its success. Our consultants have the proven expertise and ability to provide seamless integration solutions for your construction program. We'll collaborate with you to tackle the day-to-day responsibilities, while being mindful of the bigger picture.

MVL's construction program management teams work closely with owners, architects, engineers, and other construction consultants to provide seamless integration between all stages of the construction process. From concept or pre-construction to project closeout, MVL's construction and engineering consultants provide proactive problem solving solutions for any construction program.

By assigning individuals with specialized project-specific knowledge, MVL's program management consultants serve as an integral part of each project team. MVL works hard to ensure that projects come in on time and within budget.

## PROGRAM MANAGEMENT SERVICES

- Architect/Engineer Selection
- Contract Risk Analysis

- Earned Value Management
- Change Order Reviews
- Schedule Oversight
- Critical Path Method (CPM) Scheduling
- Total Float Management
- Quality Assurance & Control
- LEED Consulting Evaluations
- Dispute Avoidance and Claims Mitigation
- Performance & Productivity Assessments

## LOGISTICS

Supply Chain Management (SCM) is at the heart of our organization's operational efficiency. Our SCM team is expert at maximizing the efficient flow of your products from manufacturing right through to your final customers. Our customized solutions have helped our clients reduce inventory costs, increase transaction speed, and improve sales by implementing customer requirements more efficiently.

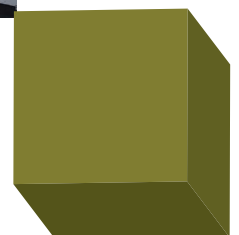

## MVL LOGISTICS AND SUPPLY CHAIN SOLUTIONS

MVL is a trusted transportation and logistics company. We combine our local know-how and international standards to provide you with a comprehensive solution for your logistics and supply chain requirements.

MVL is a dependable partner that will relieve you from the burdens of your complex day to day logistics challenges and provide you with a cost-effective tailor-made solution for your supply chain.

Our end-to-end supply chain and logistics solutions will efficiently manage the transfer of products, information and funds between your suppliers and customers allowing you to focus on reaching the full potential of your business.

MVL will cover all stages of your supply chain from the moment your inventory leaves your suppliers until the moment it reaches you or your customer.

LOGCAP III HEADQUARTERS- PROCUREMENT AND SUPPLY MANAGEMENT  
MIDDLE EAST PROCUREMENT SUPPORT CENTER

15 August 2010

**Supplier Recommendation: Micron Ventures**

As Strategic Sourcing Manager at Kellogg Brown & Root, I am responsible for formulating a procurement strategy to provide life support services for more than 200,000 military and civilian personnel operating in Iraq and Afghanistan. In light of Micron Ventures recent on-time deliveries to several Afganistan FOB's I recommend them for future considerations in generator and cable supply. Despite short suspense and a post-award specification change, MVL was able to deliver as per the original time-frame on PO#4895670 and 4895674. As per Kandahar Eng. Management, all materials were received and approved by QAQC (10 June 2010).

## ECC\_Letter of Recommendation

This message has been replied to or forwarded.

From: Dan McFerrin [dmcferrin@ecc.net]  
To: Stuart Kibbee; Abie Musa  
Cc: August Ochbauer  
Subject: Re: East Africa - Supply

Sent: Thu 5/17/2012 9:31 AM

Message | Dan McFerrin vcf

Stu,

Stu, Abie from MVL asked if I would recommend him to you regarding supply chain logistics and procurement in Djibouti and Eastern Africa.

MVL has been one of the most consistent supplier of goods and services here in Afghanistan. To date, they have shipped sandwich panels, steel coil, polyurethane, fire barrier and a number of other products to us valued at \$23M+, all competitively awarded. MVL's experience in international logistics is among the best we've seen and they have been able to expertly manage multi-modal shipments involving thousands of tons or cubic meters via air, land and sea.

If you need something on time and competitively priced, I would recommend adding MVL as one of your bidders.

Regards,  
Dan

To whom it may concern:

**Subject: Letter of Recommendation - MVL (Micron Ventures)**

We take this opportunity to recommend the services of MVL for the on time delivery of our supply of two oil and gas separators 2.8 m x 7.5 m length each from our shop in Padova, Italy, to Oman for a contract under Government of Oman.

MVL handled the logistics and government formalities professionally and played a key role in our ability to deliver these vessels to site as per our agreement.

We congratulate MVL for their accomplishment and will consider their services on future jobs.

Yours sincerely,

Our ref: Recommendation Letter

Date: 11 February 2010

To whom it Concerns:

This is to certify that Micron Ventures has been solicited to oversee the procurement / logistics of several high value orders to oversee the full spectrum of activities from source to final destination.

Their work was performed professionally and to the full satisfaction of our team. We have no hesitation to continue to work with Micron Ventures in the future.

Yours Sincerely
